CERTIFICATE OF COMPLIANCE

**RoHS & REACH Compliance:** 

High-Tech Manufacturing Services (HTMS) states that all our products supplied and offered do not contain any hazardous substances as described by the European Union Directives, 2002/95/EC &

2011/65/EU.

Any possible unintentional trace elements would be in quantities less than 10ppm. These Hazardous

RoHS Substances are identified as: Lead, Mercury, Cadmium, Hexavalent chromium, Polybrominated

biphenyl (PBB), Polybrominated diphenyl ethers (PBDE), Pentabromodiphenyl ether and

Octabromodiphenyl ether (OBDE).

HTMS supports the basic aim of REACH in improving the protection of human health and environment

through the better and earlier identification of intrinsic properties of chemical substances. HTMS meets

all applicable REACH requirements and is committed to providing our customers with information about

substances in its products as required.

Under REACH, registration of substances which are used in the manufacturing of articles do not apply to

HTMS's operations.

HTMS's products are 'articles' as defined by REACH Article 3(3) and do not release substances under

their normal use. Suppliers of articles must provide recipients with information on Substances of Very

High Concern (SVHC) if those are present above a concentration limit of 0.1% on an article level.

At this time, HTMS can assure its customers that our products do not contain any of the current listed

SVHC's and are in full compliance with the EU REACH requirement.

HTMS is committed to meeting the needs of our customers and protecting the environment.
